## \* IMPORTANT NOTE - RE: COVID-19 \*

The COVID-19 pandemic is constantly evolving and, as a result, our response continues to evolve because our paramount objective is to provide a safe learning environment for our students, employees, and members of the community. Because this is an uncertain time and the need for transition may occur, any updates to our schedule, method of class delivery, and interim policies will be communicated via the College's website, Blackboard, and email. Please make certain you check these areas on a regular basis to be informed of updates. The College acts in accordance with directives from the State of Alabama and the Alabama Community College System, and follows the health and safety guidelines issued by the CDC and the Alabama Department of Public Health to ensure your safety.

## Message from the President

*Welcome to Spring Semester at Wallace State!*

*As we start 2021 and leave a challenging 2020 behind us, we will again offer a full complement of courses on campus, online and in hybrid formats. Our students, faculty and staff continue to actively practice the enhanced health and safety protocols necessary to impede the progress of COVID-19 for as long as the pandemic remains with us. Our goal, as always, is to provide you with the best resources, education and services wherever you are – on campus or online.*

*This semester you'll see Mini Term options for courses that can be completed in eight weeks as well as Flex Start courses that allow you to enroll with a flexible start date and complete your courses on your schedule throughout the semester. A list of new Weekend options is featured on page 39 of this publication.*

*Innovation and growth are a part of our culture at Wallace State. In fact, Wallace State was recently named the No. 1 Online Community College in Alabama, and No. 16 in the nation. You will soon notice Zoom classrooms, and the construction of the new Technical Education Center for Welding and Entrepreneurship on the north end of campus behind the School of Nursing and Center for Science. Recently awarded a \$200,000 grant by the Appalachian Regional Commission, the facility will allow the expansion of the College's highly successful Welding program. The Entrepreneurship Center and Technology Incubator will contain seven incubation pods, an ideation station, along with shared conference and workspaces.*

*The College recently unveiled a new Diesel by Distance program using virtual reality, as well as new options for apprenticeships and earn-and-learn programs, similar to our popular FAME program. Wallace State was also recently selected to launch a bachelor's degree nursing program in partnership with UAB, which is a model for the state. Other recently launched programs at WSCC include Forensic Psychology, Dance, Geospatial Information Systems (GIS), Cardiovascular Sonography, Global Studies, Medical Laboratory Assistant, Small Farmer Training, and coming soon a new drone/UAS program.*

*Be sure to meet with your Success Advisor to discuss your Pathways map for program completion and STARS transfer guide. Please also take advantage of the many resources for students, including our Tutoring Lab, Job Placement Center, counseling services, food pantry, and more. Many offices offer on-campus as well as virtual services for students.*

*Wallace State has been named an Achieving the Dream Leader College, ranked among the Top 150 community colleges in the nation by the Aspen Institute for the third time, the first-choice community college by Alabama high school seniors taking the ACT, recognized nationally as a Caring Campus, and among the top colleges for health care and workforce development. The College has once again been recognized as a Military Friendly institution, with resources dedicated to honoring and serving our veterans on campus, and is receiving widespread acclaim as rates of student success, retention and graduation climb to among the highest in the nation.*

*Please stay connected with us frequently and stay up-to-date with the latest news and events on our website at [www.wallacestate.edu](http://www.wallacestate.edu). We look forward to seeing you on campus and online this semester!*

## WHAT ARE MINI TERMS AND FLEX START COURSES?

### Mini Term I: Jan. 19-March 15; Mini Term II: March 17-May 11

Mini Terms are offered each semester to allow students 1) the opportunity to complete courses in less time than a regular full term, and 2) to start a class or add extra classes mid-semester. Students wishing to accelerate completion of their degree might choose, for example, to complete ENG 101 during Mini Term I and ENG 102 during Mini Term II, so that both classes are done in one semester. Fall and Spring Mini Terms are typically 8 weeks and 6 weeks in the Summer due to the shorter semester. Be sure to talk to your advisor if you have questions about scheduling.

NOTE: Students are encouraged to register for Mini Term II Classes during Registration Nov. 17th to Jan. 25th. Students using financial aid may not be awarded additional funds if registration for Mini Term II is completed after Jan. 28th.

"Flex Start" classes refer to online classes that begin after Drop/Add ends. They start after Mini Term I and full-semester courses and before Mini Term II classes. However, even though the start date is flexible, the assignments, tests, and other assessments are all due by the end of the regular semester. Therefore, these courses are for highly-motivated students who can complete assignments successfully with less time. See Fall 2020 Flex Start courses on page 38.

# Withdrawal Policy

## Withdrawal from a Course During Registration and Drop/Add Period

A student may drop a course on their myWallaceState account during registration until the drop/add period ends. The class and the charges will be removed from the student's records if dropped before classes begin.

## Withdrawal from a Course or From the College After Registration and Drop/Add Period Ends

Once the drop/add period is over the student may withdraw from a course and will receive the grade of W in the course. The W will be posted on the official transcript and will not be used in computing the GPA. (The W will be used in calculating attempted hours for Satisfactory Academic Progress (SAP)

to receive Financial Aid.) The last date to withdraw from a course for the term is published in the current course schedule. Students can withdraw from a course via their myWallaceState account. Students who receive financial aid are advised to meet with the college financial aid department to determine impact on SAP.

If you experience issues withdrawing from a class due to holds on your account, please contact Jennifer Hill at [jennifer.hill@wallacestate.edu](mailto:jennifer.hill@wallacestate.edu)

\*All in-program nursing students should meet with nursing department prior to withdrawing from a class.

## Lion Card/Student ID

All students are required to have this form of identification while on campus or at clinical sites. IDs are available at Lion Central.

**Students receiving financial aid should read the following information carefully:**

Dropping a course prior to January 28, 2021 will result in a recalculation of a student's federal financial aid which includes Pell Grants, Direct Loans, and SEOG Funds. This recalculation could affect the amount of the financial aid award and may result in a balance owed to the college.

Dropping all classes prior to March 31, 2021 will result in a recalculation of federal financial aid which includes Pell Grants, Direct Loans, and SEOG Funds. This recalculation will be based on the number of days the student attended the class prior to dropping all classes. A student will likely owe a portion of financial aid back to Wallace state and/or the US Department of Education if all classes are dropped prior to March 31, 2021 or if the student quits attending classes prior to March 31, 2021.

**APPLY EARLY** – Students applying for financial aid should apply at least two (2) months before the next semester begins. Applying early will help ensure a timely response to federal guidelines and will allow for any unforeseen problems/situations that might occur. Applying early will also help the student avoid potential long lines or waits.

**BOOKSTORE CHARGES**

If Pell Awards exceed the amount of tuition and fees owed, students may charge books and supplies on their Pell accounts at the WSCC Bookstore. These accounts will be open for charges Monday, January 4, 2021.

**DISTANCE EDUCATION** students are responsible for logging in and meeting orientation requirements for all Blackboard, Internet, and video classes. Pell funds will not be distributed until attendance is verified.

**BALANCE CHECKS**

Per federal guidelines, attendance must be verified before balance checks can be mailed.

Students who have not been electronically verified as attending their classes by their instructors will not be able to see their Financial Aid funds on their MyWallaceState account for that class that has not been confirmed as attending. As more classes are verified, more funds will be added to the student account balance that can be seen on MyWallaceState student account.

**PLEASE NOTE:** Students in DISTANCE EDUCATION courses are responsible for logging in and meeting orientation requirements for all on-line and video classes. Pell and loan funds will not be mailed until attendance is verified. Pell Grant and Loan balance checks, with no holds, will begin mailing Friday, February 5, 2021. If you are registered in classes that begin later than January 28, 2021 your balance check will be mailed at a later date. You must attend classes prior to any funds being mailed for a particular class. Withdrawal from all classes after receiving balance checks will result in Pell overpayment and future Pell payments for WSCC or any other college will cease until the overpayment is repaid. Students that register for courses in subsequent terms after January 28, 2021 may not be eligible to receive additional financial aid coverage if they have previously registered for the term. This includes Pell Grant and

Direct Loans. Please check with the Financial Aid Office before adding these courses.

**Attendance Verification:**

Removal for classes with no AV can affect eligibility for Financial Aid and the award amount. Students utilizing federal financial aid who do not show attendance for 1 or more classes may have registration removed from the classes lacking attendance verification. Students will need instructor permission to re-enroll in classes that were removed for no attendance verification. Students can check their attendance verification on their MyWallaceState account under the Student tab.

**INSTITUTIONAL SCHOLARSHIP** recipients must complete a 2020-2021 FAFSA prior to enrollment being completed. Scholarships cannot be added to the student account until the FAFSA is received.

**REMEMBER**

Students must re-file for Pell Grants for every academic year (Fall – Summer). The Free Application for Federal Student Aid (FAFSA) is available online at [www.fafsa.gov](http://www.fafsa.gov). Students applying for 2020-2021 (fall 2020, spring 2021, summer 2021) Pell Grants must complete the forms with 2018 tax data. It is the student's responsibility to provide any additional information requested by the Financial Aid Office. The Grant cannot be awarded until the student's file is complete.

\*\*Priority Deadline for spring 2021 Financial Aid is November 1, 2020.

Completed Financial Aid paperwork must be submitted to the Financial Aid Office and Admission requirements (ID, residency, transcripts, etc.) by the deadline of November 1, 2020 in order for funds to be available for spring semester 2021. Visit <http://www.wallacestate.edu/finaid.html>. Students should review their MyWallaceState account for individual requirements.

## LEARN & EARN

Wallace State offers a number of ways for students to earn a wage while learning about their field of study.

Through the Federation for Advanced Manufacturing (F.A.M.E.), the Mercedes-Benz Tech Co-Op Partnership, and the Kubota Co-Op Partnership, students in the Mechatronics/Industrial Maintenance, Advanced Automotive Technology, and Diesel Technology programs can earn wages through employment at partner facilities while attending classes at Wallace State.

Living on campus has many advantages. Wallace State's residence halls provide an environment conducive to academic achievement and are conveniently located within walking distance to classrooms, the library, and other campus facilities. Residents often find that living in a dorm is a great way to become involved in student activities and make new friends.

Wallace State offers both men's and women's dormitories. The rooms are large and designed for double-occupancy, but a limited number of single rooms are available. Most rooms have two double beds, two study areas with storage units, a large walk-in closet and a private bath. Multiple laundry facilities are located in each residence hall with coin-operated washers and dryers.

Telephone and cable outlets are provided in each room.

The residence halls also provide community kitchen facilities. In addition, residents are allowed to have refrigerators and microwave ovens in their rooms. The WSCC Café, located in the School of Nursing and Center for Science, is open Monday-Thursday, from 7:30 a.m. to 5 p.m., and provides meals offered through the meal plan. A variety of restaurants are located adjacent to campus.

It is College policy that, until further notice, individuals must wear masks or other suitable face coverings on campus:

1. You must wear a mask whenever you are inside a building on campus, unless you are alone in your room or office with your door closed.
2. You must wear a mask or face covering whenever you are outside and within 6 feet of another person while on campus.
3. You must wear a mask appropriately covering your nose and mouth. Please see diagram of proper mask wearing.

If you do not have a properly fitting mask, one will be provided for you. Disposable masks are available at Lion Central.
