Background Check Policy for Health Science Division

Education of Health Science Division students at Wallace State Community College requires collaboration between the college and clinical affiliates. Education of these students cannot be complete without a quality clinical education component. The college shares an obligation with the clinical affiliates to protect the affiliate's patients to the extent reasonably possible from harm. The college wishes to ensure that the health and safety of students and patients are not compromised and that clinical affiliation agreements exist to provide students with quality clinical education experiences.

In establishing clinical affiliation agreements, healthcare educational programs are contractually obligated to comply with the requirements set forth by clinical affiliates. Student enrolled in health care educational program must conform to the rules, policies and procedures of the clinical affiliate in order to participate in clinical learning experiences. It is therefore the policy of Wallace State Community College Health Science Division that students enrolling in health profession programs submit to background checks.

III. Consent

Students must sign the appropriate consent(s) for a background check at the time of admission to a health care program. A copy of the signed consent(s) will be maintained in the permanent student record. The student will provide applicable consent(s) to the vendor conducting the background check. If the student is under eighteen (18) years of age, the student's parent or guardian must sign the consent form in addition to the student.

IV. Background Check Procedure

The background checks will be conducted by a college-designated vendor according to program specific deadlines. Background checks or Background check Updates performed by any other vendor or agency will not be accepted. Students reinstated to a program after an absence from program coursework of one semester or more, will have to repeat background testing.

Students with completed background checks transferring to or starting another healthcare program with uninterrupted time may be allowed to conduct a background check update.

Students enrolled in programs which last longer than one calendar year must have a background check update beginning the fall semester of the second year.

The student will be responsible for the cost of the background check. Any student failing to pay the fee in effect at the time of the background check by the published deadline and/or refusing to sign the consent form(s) will not undergo a background check and will be prohibited from attending clinical learning experiences. The student in this situation will be dismissed from the program. A grade of "F" will be recorded for the course(s) if the student does not officially withdraw.

If a student is experiencing extenuating circumstances that prohibit completion of the background check by the deadline, they should contact the healthcare program director who will determine if the student will be allowed to proceed without the background check. No student will be allowed to attend the clinical experience until the full background check process is completed.

Some clinical affiliates may require an additional background check to fulfill requirements above those required by this procedure. If required, the expense of additional background checks will be the responsibility of the student.

V. Results

Results of the background check are available to the health care program director. Designees at the clinical affiliate will be provided with a copy, if requested, of negative results for students assigned to that agency.

The student with a positive background check will be informed of the results by the healthcare program designee and/or background check vendor. The student can access a copy of the background check results through the background check vendor website.

Students with a positive background check will be denied assignment to a clinical facility pending resolution of the background check finding. Students will be advised to contact the background check vendor to dispute any information reported and to clear any findings of the background check.

Background checks which could render a student ineligible to obtain clinical learning experiences include, but are not limited to, certain convictions or criminal charges which could jeopardize the health and safety of patients and sanctions or debarment. Felony or repeated misdemeanor activity within the past seven (7) years and Office of the Inspector General violations will normally prohibit the obtainment of clinical learning experiences with clinical affiliate(s). Positive findings on background checks can have licensure implications upon graduation from a health program.

Students who are unable to resolve a positive background check will be dismissed from the health care program. A grade of "F" will be recorded for the course(s) if the student does not officially withdraw. The student will be advised by a program advisor as to their eligibility for program re-entry and the mechanisms for reapplication to the program.

Results will be securely filed in the office of the health program. The healthcare program designee will have access to the results of the background check.

Results of any student's background screen will be shared only on a need to know basis with the exception of legal, disciplinary or appeal actions which require access to the results.

Any offenses resulting in an arrest which occurs after an initial background check must be reported to the program director within 72 hours of the arrest and a background check update will be necessary for continuation in a health program.
