6. Selection

Meeting Minimal Requirements Does Not Guarantee Acceptance.

Applicants are ranked on the basis of a formula that weighs the grades in the general education required courses, observation hours, ACT Score, and other application requirements – See General Education Worksheet for details/point values. All applicants who meet the minimum requirements are considered; however, the higher an applicant's GPA on the general education requirements, observation hours and ACT score, the better chances for admission. Additional points may also be added to the ranking for individuals who have completed PTA 120 at WSCC.

In the event of a tie for program admission, the applicant with the highest numerical average in PTA 120 (first attempt) will be accepted. If this does not fully resolve the tie, the program will then consider highest GPA points followed by highest ACT composite score followed by highest ACT reading subscore. Written notification of the outcome will be emailed to each applicant at the email provided on the application.

Program applications will be reviewed for completion of program admission requirements. Written notification of program acceptance status will be sent to each applicant via information supplied on the program application.

Please check your WSCC student email and your alternate email (that you provided on your PTA program application) periodically for application notifications.

Once application information is submitted, it becomes the property of Wallace State Community College and will not be released from this application. Application data is not kept on file from previous application submissions.

Accepted students are required to submit to drug screenings and background checks, as well as attend a mandatory health program orientation. [Drug Testing Policy](#) and [Background Check Policy](#) are available for viewing on the Health Division page. Please **DO NOT** complete either of these until instructed to do so by the Program Director.
